PROFESSIONAL SUMMARY

I'm a very flexible and self-critical developer. Experienced working with teams to produce impactful, leading-edge websites that engage customers and deliver business results. My strongest feature as a full-stack developer is my proper use of design patterns to keep the code clean, organized, and maintainable. I always seek to learn new paradigms, methods and ways of thinking that help me improve both as a person and as a professional. I like to work in a team, solve problems, form friendships, and promote positive energies in my workplace.

SKILLS

- Programming languages: CSS, SASS, HTML, Typescript, JavaScript, C#, C++, Java, XAML, SQL, Visual Basic, Python
- Frameworks: React, React Native, NextJS, Angular, Vue, ASP.NET, NodeJS, .NET, Pega Robotics, WPF, Tailwind, Bootstrap, Material Design, RxJs
- Data base management: SQL Server, MySQL, ORACLE, MongoDB
- Cloud and storage: Azure, GitHub, BitBucket
- Code quality & testing: SonarCloud, Jenkins, Cypress, Jest
- Workflow: Jira, Azure Devops
- Hobbies: music production, DJ and drawing
- Design: Figma, Photoshop, Illustrator, Procreate
- Personal Skills: self-taught, cautious, always willing to help, I like to solve problems and always learn new things.
- Languages: Spanish, English

WORK HISTORY

Senior Front End Developer | RollKall - Irving, Texas (Remote) 06/2022 - 12/2023

- Utilized modern JavaScript and Typescript frameworks (React and React Native) for developing scalable and maintainable web and mobile applications.
- Enhanced user experience by implementing responsive web designs and optimizing site performance with Bootstrap and Tailwind.
- Collaborated with cross-functional teams to design, develop, and launch new features for web applications.
- Boosted web traffic by improving navigation and rectifying bottlenecks by using React Query and Zustand .
- Worked closely with UX/UI designers to implement visually appealing interfaces that met client requirements.
- Conducted thorough code reviews ensuring high-quality code standards and adherence to best practices.

Software Engineer | Ernst & Young - Lima, Peru 12/2018 - 06/2022

- Development of robots (RPA) using Pega Robotics for the automation of administrative processes in banks.
- Software architecture design for scalable and resilient bank services.
- Audit of systems and cybersecurity in banks.
- DBA, functional analyst and QA for the development of an on-premise web application.
- Full stack development of a web application using ASP.NET Razor.
- UI/UX design & Front-end development of a responsive web application using Angular 9 with RxJs and Bootstrap.
- UI/UX design & Front-end development of a responsive web application using Angular 12 with RxJs, Nebular and Material Design
- Developed a robust, scalable, modular and API-centric infrastructure and Web application using NextJS and NodeJS

Full Stack Junior Developer | Petroleum UX - London, UK (Remote)

- Full-stack development of desktop applications in WPF for geographic and statistical analysis of oil wells. 04/2016 - 12/2018
- Designed and implemented scalable applications for data extraction and analysis.
- Optimized application performance with efficient coding practices and database management.
- QA y code reviews according to the standards established in the project.
- Conducted data modeling, performance and integration testing using Jenkins.
- Implemented best practices in code quality, ensuring maintainability and readability of software projects.
- Built databases and table structures for web and desktop applications using Oracle.

EDUCATION

Pontificia Universidad Católica Del Perú - Lima, Peru
Bachelor of Science: Informatics Engineering

12/2018
